JOBSHEET 8

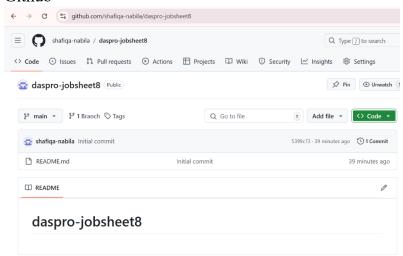

Nama: Shafiqa Nabila Maharani Khoirunnisa

NIM: 244107020221

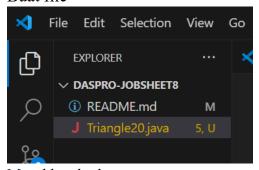

Kelas: 1B

PERCOBAAN 3

1. Github

2. Buat file

3. Masukkan kode program

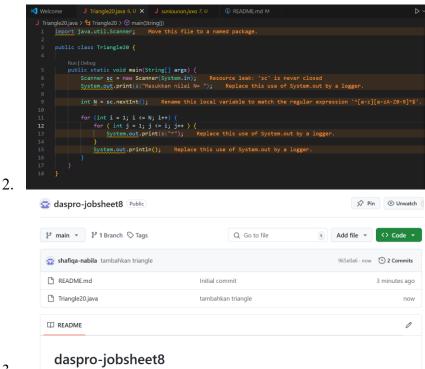

4. Output

```
PROBLEMS 1 OUTPUT DEBUG CONSOLE TERMINAL PORT

2\bin' 'Triangle20'
Masukkan nilai N= 5
PS C:\Users\fika\JOB SHEET 8\daspro-jobsheet8>
```

JAWABAN PERTANYAAN:

1. Tidak sesuai.

3.

PERCOBAAN 4

1. Masukkan kode program

```
import java.util.Scanner;
public class RataNilai20 {
         Run | Divide
public static void main(String[] args) {
    Scanner sc = new Scanner(System.in);
    float nilaiPMs, totalNilais, retainNilai; Declare "totalNilai" and all following declarations on a separate
    int i, j; Declare "j" on a separate line.
              i = 1;
while(i <= 5) {
    System.out.println("Input Nilai Mahasiswa ke-" + i);    Replace this use of System.out by a logger.
    totalNilai = 0;
    for (j = 1; j <= 5; j++) {
        System.out.print("Nilai ke-" + j + " : ");    Replace this use of System.out by a logger.
        nilaiMhs = sc.nextint();
        totalNilai += nilaiMhs;
}</pre>
                          f
rataNilai = totalNilai / 5;
System.out.println("Rata Rata Nilai Mahasiswa ke-" + i + " : " + rataNilai); Replace this use of Sys
i++;
```

2. Run program
